

IPCC ROOT

Princeton/Intel Parallel Computing Center

Progress Report

Vassil Vassilev, PhD

21.11.2017

Status 24.10.2017 — 20.11.2017

- ❖ The CERN SFT group has been restructured. The ROOT project has a new project leader: Axel Naumann
- ❖ Axel have asked all team members to provide a plan of work for discussion on specific topics. More can be found [here](#).

Status 24.10.2017—20.11.2017

- ❖ ROOT-IPCC project was funded for the next year
- ❖ There are some delays in the process (Peter Elmer knows the details)
- ❖ We are trying hard to come up with a project plan for next year to match the expectations for ROOT-IPCC and ROOT's program of work.

Thank you!
