24.04.2018

Status 29.03.2018—23.04.2018

- ❖ I/O and Reflection:
 - ❖ Our memory optimizations were picked up by CMS and they reported lower memory usage!
 - ❖ Set up a bi-weekly meeting to help CMS people migrate to C++ Modules improving compile-time and later runtime performance

Status 29.03.2018—23.04.2018

- ❖ I/O and Reflection:
 - ❖ Working on a few long-standing pull requests

Thank you!
