

IPCC ROOT

Princeton/Intel Parallel Computing Center

Progress Report

Vassil Vassilev, PhD

08.05.2018

Status 04.04.2018—07.05.2018

- ❖ I/O and Reflection:

- ❖ We will have Raphael, the C++ Modules TS who implemented the C++ Modules support for CMSSW, at CERN for couple of days. Looking how to optimize his stay to be most helpful.

Status 04.04.2018—07.05.2018

- ❖ I/O and Reflection:
 - ❖ Working on a few long-standing pull requests
 - ❖ Reducing the last test failures in ROOT's runtime modules (now down to 30 out of ~1650)

Thank you!
