# Progress Report

Vassil Vassilev, PhD

30.05.2018

# Status 08.05.2018—29.05.2018

---

- ❖ I/O and Reflection:
  - ❖ Created a CMSSW-specific C++-Modules-aware container allowing us to make progress on CMSSW.
  - ❖ Landed a few important long-standing pull requests allowing automatic discovery of C++ modules. Needs further optimization.

# Status 08.05.2018—29.05.2018

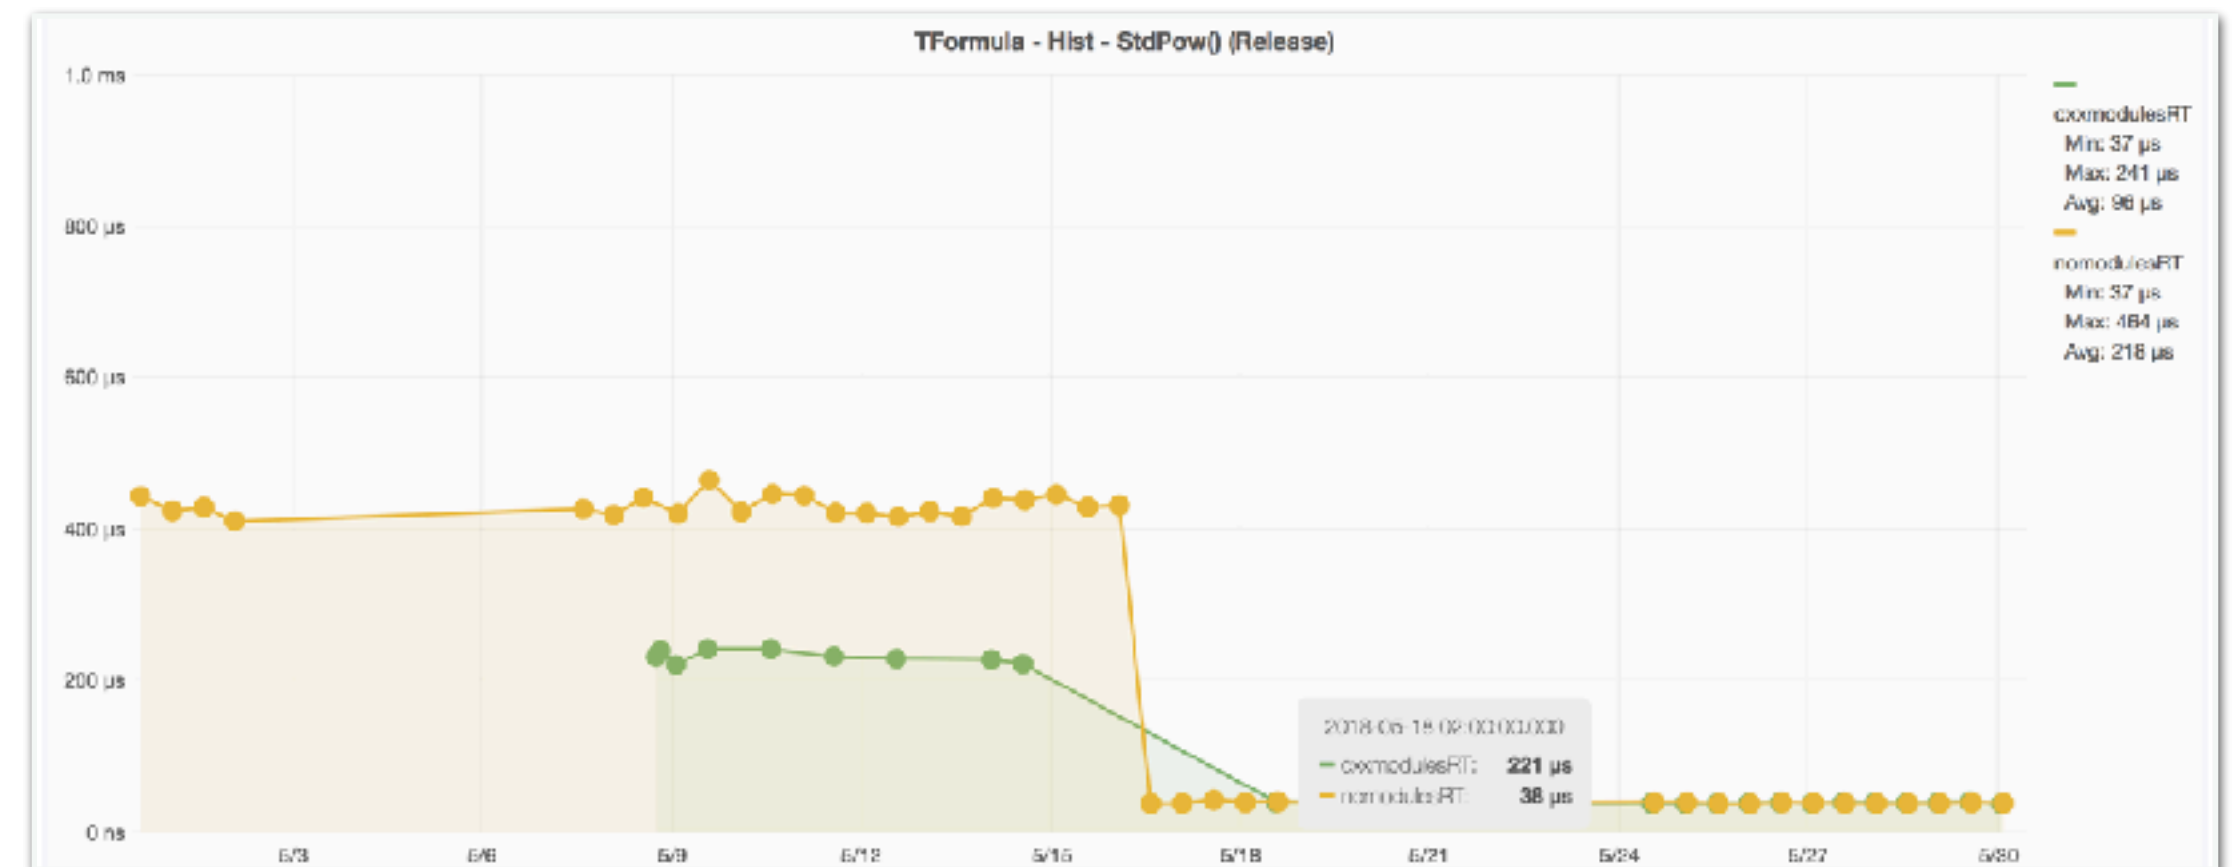

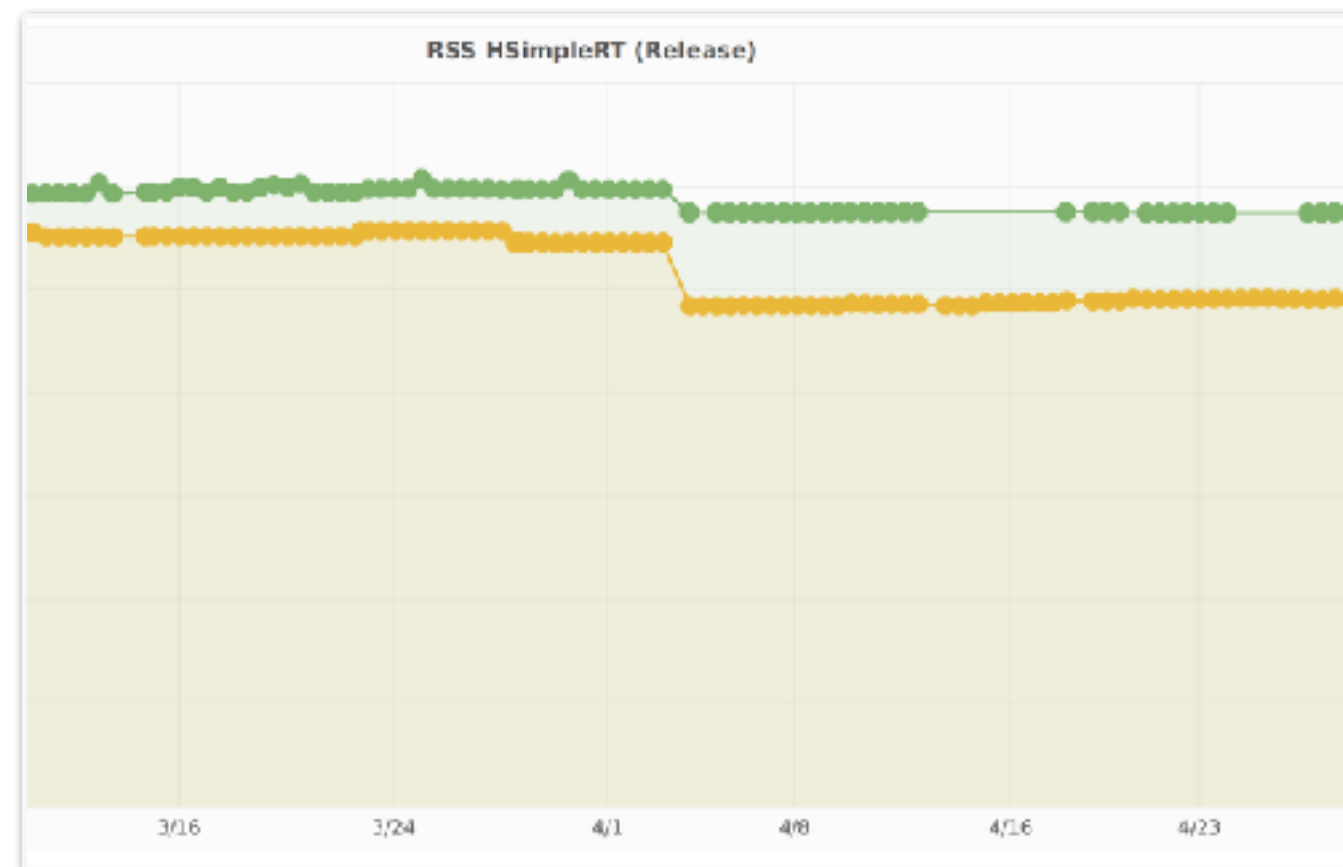

---

- ❖ I/O and Reflection:
  - ❖ Working on a few long-standing pull requests

# Status 08.05.2018—29.05.2018

- ❖ Other improvements to be released in v6.14 (beginning of June)
  - ❖ Optimized PCH deserializations
  - ❖ Better performance of TFormula.

Thank you!
