

# IPCC ROOT

## Princeton/Intel Parallel Computing Center

# Progress Report

Vassil Vassilev, PhD

19.07.2018

# Status 21.06.2018—18.07.2018

---

- ❖ CHEP 2018 in Sofia, Bulgaria:
  - ❖ Presentations: Extending ROOT through Modules and HEPCon - A Cross-Platform Mobile Application for HEP Events
  - ❖ Posters: Optimizing Frameworks' Performance Using C++ Modules-Aware ROOT and Continuous Performance Benchmarking Framework for ROOT

# Status 21.06.2018—18.07.2018

---

- ❖ CHEP 2018 in Sofia, Bulgaria:
  - ❖ Very productive time, people were very happy with the event organization (surprisingly no complaints)
  - ❖ Intel was a Silver Sponsor and also gave the three best posters a prize (Intel NUC machine)
  - ❖ Vassil's poster was close (12 votes, the 3rd place poster had 15!). All contributions were well-received.

Thank you!
